

THE ADMINISTRATION'S DRUG PRICING AGENDA • LIVE IN THE APP

TrumpRx savings, delivered *inside the InPursuit Health App*.

The Administration launched TrumpRx.gov to bring Americans manufacturer-direct drug pricing. The CMS-recognized InPursuit Health App is where that pricing becomes personal: the same record that holds a member's medications matches each one against TrumpRx.gov pricing automatically, shows the savings on the medication card itself, and links the member straight to TrumpRx.gov to act. No searching, no re-typing a drug list into another site. Your data, working for you, when Results Matter™ most.

WHY THIS MATTERS

This is the CMS Health Tech Ecosystem thesis running end to end: the record the person owns, put to work on the Administration's pricing agenda. Recognized by CMS in every pledged category on July 27, and delivering the newest federal programs the day they reach consumers, on infrastructure where every new capability reuses the same foundation.

SAVINGS SHOWN REFLECT TRUMPRX.GOV PUBLISHED PRICING AT TIME OF CAPTURE AND VARY BY MEDICATION, DOSAGE, AND AVAILABILITY. INPURSUIT LINKS MEMBERS TO TRUMPRX.GOV; TRUMPRX IS A U.S. GOVERNMENT PROGRAM.
